FILE TRANSFER
INSTRUCTIONS
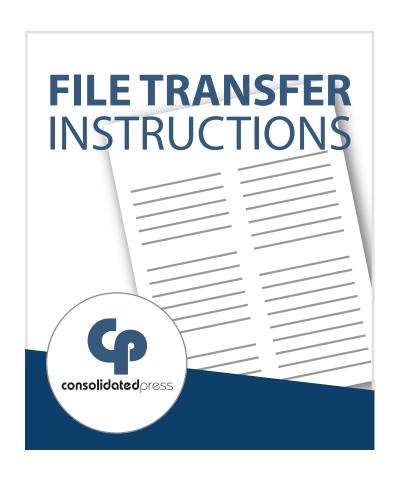

consolidatedpress

To transfer files, please upload a ZIP file using the following information:

✓ If using a web browser, type https://transfer.consolidatedpress.com into the address bar.

✓ If using FTP software such as Fetch or FileZilla, use host name "transfer.consolidatedpress.com".

✓ The user name and password provide access to your secure transfer folder on our server.
  - User name: XXXX
  - Password: ####
    (Contact your project manager for user name and password)

✓ The web browser link provides a verification process for your uploads. When you see "upload verified," you can rest assured we have a perfect copy of your file. This method is preferred over FTP, especially if you have an unreliable internet connection or files larger than 100 megabytes.
